**Safes use and handling**

- Store your cellphone in a cool and dry place and do not expose your cellphone to extreme temperature extremes (below 0℃/32°F or above 40℃/104°F). Color degradation or peeling may occur.
- Do not allow your cellphone to be exposed to adverse weather or environmental conditions. This includes but is not limited to: high temperatures, humidity, sand, and liquid.
- Do not expose your cellphone to direct sunlight for extended periods.
- Do not allow your cellphone to come into contact with any liquid (for example, water, oil, sweat). If your cellphone does come into contact with any liquid, immediately unplug it from the charger and remove the battery.
- Remove the battery and memory card before sending your cellphone to a service center for repair.
- In the event of any damage to your cellphone or any attached components, stop using your cellphone immediately and contact your local service center before using your cellphone again.
- Do not allow your cellphone to be exposed to high pressure.

**Battery**

- The battery can only be charged using the designated charging device. Do not attempt to charge the battery using any other device.
- Do not attempt to disassemble or replace the battery. Batteries may explode if damaged.
- Do not expose the battery to extreme temperatures (below 0℃/32°F or above 40℃/104°F) for extended periods. Color degradation or peeling may occur.
- Do not expose your battery to high pressure or pressure fluctuations.
- Do not allow your battery to come into contact with any liquid (for example, water, oil, sweat). If your battery does come into contact with any liquid, immediately unplug it from the charger and remove the battery.
- Remove the battery and memory card before sending your cellphone to a service center for repair.
- In the event of any damage to your battery or any attached components, stop using your cellphone immediately and contact your local service center before using your cellphone again.
- Do not allow your battery to be exposed to high pressure.

**Temperature use and handling**

- Do not charge your cellphone in areas where the temperature is less than 0℃/32°F or more than 40℃/104°F.
- Do not use your cellphone in areas where the temperature is less than 0℃/32°F or more than 40℃/104°F.
- Do not expose your cellphone to direct sunlight for extended periods.
- If your cellphone is over heated, your cellphone may automatically shut down or the display may become unclear. In this case, unplug it from the charger, remove the battery, and leave it in a cool place to cool down.

**Safety use and handling**

- Keep the network service in effect when you are using your cellphone. This will ensure proper network function and prevent unnecessary power consumption.
- Do not use your cellphone while driving. If you need to make or receive a call, pull over to a safe location first.
- Do not use your cellphone near flammable or explosive substances. Your cellphone contains flammable materials.
- Do not use your cellphone while flying in an airplane. This may be dangerous for others on board and may be illegal.
- Do not attempt to disassemble or replace the battery. Batteries may explode if damaged.
- Do not allow your cellphone to be exposed to high pressure or pressure fluctuations.
- Do not allow your cellphone to come into contact with any liquid (for example, water, oil, sweat). If your cellphone does come into contact with any liquid, immediately unplug it from the charger and remove the battery.
- Remove the battery and memory card before sending your cellphone to a service center for repair.
- In the event of any damage to your cellphone or any attached components, stop using your cellphone immediately and contact your local service center before using your cellphone again.
- Do not allow your cellphone to be exposed to high pressure.

**Water**

- Always keep your cellphone dry. Do not allow it to come into contact with water or any other liquid. Your cellphone is water-resistant. It is not water-proof.
- If your cellphone gets wet, immediately unplug it from the charger and remove the battery. Do not attempt to disassemble or replace the battery. Batteries may explode if damaged.
- If your cellphone is over heated, your cellphone may automatically shut down or the display may become unclear. In this case, unplug it from the charger, remove the battery, and leave it in a cool place to cool down.

**Shock and vibration**

- Do not subject your cellphone to shock or vibration. This may damage your cellphone.
- Do not allow your cellphone to be exposed to high pressure or pressure fluctuations.
- Do not allow your cellphone to come into contact with any liquid (for example, water, oil, sweat). If your cellphone does come into contact with any liquid, immediately unplug it from the charger and remove the battery.
- Remove the battery and memory card before sending your cellphone to a service center for repair.
- In the event of any damage to your cellphone or any attached components, stop using your cellphone immediately and contact your local service center before using your cellphone again.
- Do not allow your cellphone to be exposed to high pressure.

**General information**

- **Website**: www.alcatelonetouch.com
- **Customer Support**: TCT Mobile Limited or its affiliates or your vendor, for help and advice on how to use your cellphone.  
- **Maintenance and Warranty**: TCT Mobile Limited or its affiliates.
- **Recycling**: Please return your used batteries or electronic waste to your local waste collection site or recycling facility. You can also return them to your local carrier or retailer. By properly recycling your used batteries or electronic waste, you help to preserve natural resources and prevent negative environmental impacts. www.alcatelonetouch.com
- **Protection against dust**: Your cellphone is designed to protect against dust and water damage. However, it is not dust-proof, water-proof, or immune to minor shocks. Exercise caution when using your cellphone in dusty environments or near water.
- **Disclaimer**: There may be certain differences between the user manual descriptions and the actual product, depending on the software release of your cellphone. TCT Mobile Limited reserves the right to change the descriptions at any time without prior notice.
- **Privacy**: The purpose of the data stored on your memory card is to ensure the legal requirements of the law. The data stored on your memory card may include personal information such as names, addresses, phone numbers, photographs, etc. TCT Mobile Limited or its affiliates will not be held legally responsible for such differences, if any.
- **Accessories**: TCT Mobile Limited or its affiliates shall not be held legally responsible for such differences, if any.

**Retrofit and accessories**

- Before using your cellphone, you must ensure that the retrofit is compatible with your cellphone. Please check local laws to make sure you are not in violation of local regulations. Only use the retrofit for your purpose as per the equipment's instruction manual. Do not use any retrofit that is not approved by TCT Mobile Limited or its affiliates.
- Check if your cellphone's main caregiver is compatible with your main caregiver. Take particular care not to set your main caregiver to a frequency that is not supported by your cellphone. In this case, the main caregiver may not work in public, commercial and national regulations. When the cellphone is switched on, it should be kept at least 15 cm from any electronic devices.
- **Proper use of your cellphone**: Use the cellphone only for its intended purpose. Do not use it for any purpose not mentioned in this user manual.
- **Proper use of your main caregiver**: Use the main caregiver only for its intended purpose. Do not use it for any purpose not mentioned in its instruction manual.

**Troubleshooting**

- **My screen is difficult to read**
  - Check: If your screen is difficult to read, your screen may be too bright or too dark. Adjust the screen brightness and set comfort brightness.
- **My cellphone is frozen, can't power on**
  - Check: Turn off your cellphone by pressing the power key. If it doesn't work, press the reset button. If it still doesn't work, remove the battery and insert it again. If it still doesn't work, unplug it from the charger and keep it in a cool place to cool down.
- **I cannot access my voicemail**
  - Check: Make sure that you have correctly recorded the number in your address book.

**SPECIFICATIONS**

- **Software version**: 3.1.0
- **CPU speed**: 667 MHz
- **Screen size**: 132.4 x 64
- **Memory**: 128 MB RAM, 8 MB ROM
- **Network**: 2G, 3G
- **Battery**: Lithium 750 mAh
- **Dimensions**: 122.3 x 58.2 x 13.8 mm
- **Weight**: 120 g
- **Operating system**: Android 2.1
- **Camera**: 2.0 MP
- **Operating temperature**: 0-40°C (32-104°F)
- **Storage**: 160 MB
- **Display resolution**: 320 x 480 pixels
- **Battery life**: Up to 480 minutes
- **Operating time**: Up to 10 hours
- **Charging time**: Up to 2 hours

**My cellphone will not connect to a network**

- Check: Make sure that your cellphone is connected to a network, and that the network you are trying to connect to is available.
- Check: Make sure the chip on your SIM card is not damaged or scratched.
- Check: Make sure your SIM card is inserted correctly.
- Check: Make sure that your SIM card is valid.
