- Use a selection or navigation key to scroll and select. See Navigation on page 13.
Getting started

Assembly
Before you start using your phone, you need to insert a SIM (Subscriber Identity Module) card and the battery.

To insert the SIM card

1. Unlock the battery cover by screwing the cover lock as shown in the picture.
2. Remove the battery cover.
3. Slide the SIM card into its holder with the gold-coloured contacts facing down.

To insert the battery

1. Insert the battery with the label side up and the connectors facing each other.
2. Insert the battery cover into place.
3. Lock the battery cover by screwing the cover lock as shown in the picture.

This is the Internet version of the User's guide. © Print only for private use.
Turning on the phone

To turn on the phone

1. Press and hold down ①.
2. Enter your SIM card PIN (Personal Identification Number), if requested, and select OK.
3. Select a language.
4. Select Yes to use the setup wizard while settings are downloaded.

If you want to correct a mistake when you enter your PIN, press ◄.

SIM card
The SIM card, which you get from your network operator, contains information about your subscription. Always turn off your phone and detach the charger before you insert or remove the SIM card.

You can save contacts on the SIM card before you remove it from your phone. See To copy names and numbers to the SIM card on page 25.

PIN
You may need a PIN to activate the services in your phone. Your PIN is supplied by your network operator. Each PIN digit appears as *, unless it starts with emergency number digits, for example, 112 or 911. You can see and call an emergency number without entering a PIN.

If you enter the wrong PIN three times in a row, the SIM card is locked. See SIM card lock on page 64.

Startup screen
The startup screen appears when you turn on your phone. See Using pictures on page 21.

Standby
After you have turned on your phone and entered your PIN, the name of the network operator appears. This view is called standby.
Help
In addition to this User guide, Getting started guides and more information are available at www.sonyericsson.com/support.

Help in your phone
Help and information are available in your phone. See Navigation on page 13.

To view tips and tricks
1 From standby select Menu > Settings > the General tab > Setup wizard.
2 Select Tips and tricks.

To view information about functions
• Scroll to a function and select Info, if available. In some cases, Info appears under Options.

To view the phone demonstration
• From standby select Menu > Entertainment > Demo tour.

To view status information
• From standby press the volume key up.

Charging the battery
The phone battery is partly charged when you buy it.

To charge the battery
1 Connect the charger to the phone. It takes approximately 2.5 hours to fully charge the battery. Press a key to view the screen.
2 Remove the charger by tilting the plug upwards.

💡 You can use your phone while it is charging. You can charge the battery at any time and for more or less than 2.5 hours. You can interrupt the charging without damaging the battery.

GPS
Your phone is equipped with a GPS receiver that uses satellite signals to calculate your location.

Some GPS features use the Internet.

Using the GPS
Make sure you have a clear view of the sky when using features that require the GPS receiver to find your location. If your location is not found after a few minutes, move to another location. To facilitate the search, stand still and do not cover the GPS antenna.
Assisted GPS
With Assisted GPS (A-GPS) it takes less time to calculate a location.

Contact your network operator for more information.

Google Maps™ for mobile
Google Maps™ lets you view maps and satellite imagery, find locations and calculate routes.

To use Google Maps
• From standby select Menu > Location services > Google Maps.

To view help about Google Maps
• When you use Google Maps, select Options > Help

Driving directions
Wayfinder Navigator™ guides you to your destination using voice instructions. A free three-month trial version of Wayfinder Navigator is included in the phone.

Sony Ericsson does not warrant the accuracy of any directional services including but not limited to turn-by-turn navigational services.

To start Wayfinder Navigator
• From standby select Menu > Location services > Navigation.

More GPS features

4 Scroll to Position: and select Add > Current position.

To view a saved location
1 From standby select Menu > Location services > My favourites.
2 Scroll to a location and select Go to.

When you use Google Maps you can press (*) to access your favourites.
Status information
When your location is found you can view available satellites and get information about your current speed and altitude.

To view GPS status
1 From standby select Menu > Location services > Status info.
2 Scroll between the tabs.

Location requests
External services may ask for your location.

To change permission for external services
1 From standby select Menu > Location services > Settings > Privacy.
2 Select an option.

Turn off the GPS
The GPS receiver is automatically turned off when it is no longer used. You can also manually turn off the GPS receiver. This saves battery power when using features that do not require the GPS receiver to find your location.

To turn the GPS on or off manually
1 From standby select Menu > Location services > Settings.
2 Select an option.

Tracker
Tracker is a GPS-based sports application which allows you to keep track of your speed, distance, route and energy consumption during training.

Information provided by use of the Tracker application is approximate. Sony Ericsson makes no warranty of any kind with respect to the accuracy of the Tracker application. Any serious health and fitness concerns should be referred to a health care professional.

You can base the training on how long time you want to train or on what distance you want to cover. You can also base it on a previous training route which has GPS data.

To start a training session
1 From standby select Menu > Location services > Tracker > Start training.
2 Select a training type.
3 Scroll to an item, select Edit and enter the data.
4 Select Done to save.
5 Select Start to start training.

To compare results during training

To calculate and view the energy consumption for a session you must first set your personal profile. You can see the energy consumption in the result view.

To set the personal profile
1 From standby select Menu > Location services > Tracker > Settings > Personal profile.
2 Select an item, enter data and press OK.
3 When finished, select Options > Save profile.

To turn on energy consumption
• From standby select Menu > Location services > Tracker > Settings > Energy consumption > On.

To switch between training views
• During a training session, press ⬋ or ⬇ to view information on training duration, progress and live comparison with a previous session.

To end a training session manually
• During a training session, select Pause > End.

Results
The training result is shown after a session is ended. You can view past results anytime, and compare them if they have GPS data.

To view a training result
• From standby select Menu > Location services > Tracker > Results. If you have used laps, press ⬋ or ⬇ to view result per lap.
Connectivity

Settings
Before you synchronize with an Internet service, use the Internet, PlayNow™, My friends, Java, picture messaging, email and picture blog you need to have settings in your phone.

If settings are not already entered, you can download settings using the setup wizard or by going to www.sonyericsson.com/support.

To download settings using the Setup wizard
1 From standby select Menu > Settings > the General tab > Setup wizard > Settings download.
2 Follow the instructions that appear.

Phone name
You can enter a name for your phone that is shown to other devices when using, for example, Bluetooth wireless technology.

To enter a phone name
1 From standby select Menu > Settings > the Connectivity tab > Phone name.
2 Enter the phone name and select OK.

Bluetooth wireless technology
The Bluetooth function makes wireless connection to other Bluetooth devices possible. For example, you can:

• Connect to handsfree devices.
• Connect to several devices at the same time.
• Connect to computers and access the Internet.
• Exchange items and play multiplayer games.

Contact your network operator or service provider for more information.

To download settings using a computer
1 Go to www.sonyericsson.com/support.
2 Follow the instructions on the screen.

We recommend a range within 10 metres (33 feet), with no solid objects in between, for Bluetooth communication.
Before you use Bluetooth wireless technology
You must turn on the Bluetooth function to communicate with other devices. You may also have to pair your phone with other Bluetooth devices.

To turn the Bluetooth function on
- From standby select Menu > Settings > the Connectivity tab > Bluetooth > Turn on.

! Make sure that the device you want to pair your phone with has the Bluetooth function activated and Bluetooth visibility set to on.

To receive an item
1 From standby select Menu > Settings > the Connectivity tab > Bluetooth > Turn on.
2 When you receive an item, follow the instructions that appear.

To pair the phone with a device
1 From standby select Menu > Settings > the Connectivity tab > Bluetooth > My devices.
2 Scroll to New device and select Add to search for available devices.
3 Select a device.
4 Enter a passcode, if required.

To allow connection to the phone
1 From standby select Menu > Settings > the Connectivity tab > Bluetooth > My devices.
2 Select a device from the list.
3 Select Options > Allow connection.
4 Select Always ask or Always allow.

! This is only possible with devices that require access to a secure service.

To pair the phone with a Bluetooth handsfree for the first time
1 From standby select Menu > Settings > the Connectivity tab > Bluetooth > Handsfree.
2 Scroll to a device and select Yes.
3 Enter a passcode, if required.

To pair the phone with more than one Bluetooth handsfree
1 From standby select Menu > Settings > the Connectivity tab > Bluetooth > Handsfree > My handsfree > New handsfree.
2 Select a device from the list.
3 Enter a passcode, if required.
Power saving
You can save battery power with the Power save function. You can only connect with one Bluetooth device at a time when using Power save. You must turn this function off if you want to connect with more than one Bluetooth device at the same time.

To turn Powersave on
• From standby select Menu > Settings > the Connectivity tab > Bluetooth > Powersave > On.

Transferring sound to and from a Bluetooth handsfree
You can transfer the sound to and from a Bluetooth handsfree using a phone key or the handsfree key.

To transfer sound

2 Select an option. In phone transfers sound to the phone. In handsfree transfers sound to the handsfree.

To transfer sound during a call
1 During a call, select Sound.
2 Select from the list.

Using the USB cable
You can connect your phone to a computer with the USB cable to transfer files, synchronize and use your phone as a modem. For more information go to the Getting started section at www.sonyericsson.com/support.

Before you use the USB cable
See Required operating systems on page 39.

! Only use a USB cable supported by your phone. Do not remove the USB cable from your phone or computer during file transfer as this may corrupt the phone memory or the memory card.
To disconnect the USB cable safely
1 Right-click the removable disk icon in Windows Explorer.
2 Select Eject.
3 Disconnect the USB cable when the following message is shown in the phone: Mass storage session ended. It is now safe to remove the USB cable.

Drag and drop content
You can drag and drop content between your phone or memory card and a computer in Microsoft Windows Explorer.

To drag and drop content
1 Connect your phone to a computer using the USB cable.
2 Phone: Select Media transfer. The phone will remain activated during file transfer.
3 Computer: Wait until an external device icon appears in My Computer and then double click to open. Phone memory and memory card will appear as external drives.
4 Drag and drop selected files between the phone and the computer.

Synchronizing
You can synchronize in two different ways:
• You can use the USB cable or Bluetooth wireless technology to synchronize phone contacts, appointments, bookmarks, tasks and notes with a computer program such as Microsoft Outlook.
• You can synchronize with an Internet service using SyncML™ or a Microsoft Exchange Server using Microsoft Exchange ActiveSync™.
For more information go to the Getting started section at www.sonyericsson.com/support.

💡 Use only one of the synchronization methods at a time with your phone.

Synchronizing using a computer
Before synchronizing you need to install the Sony Ericsson PC Suite.

⚠️ Sony Ericsson PC Suite software is included on the CD with your phone and available for download at www.sonyericsson.com/support.

See Required operating systems on page 39.
To install the Sony Ericsson PC Suite
1. Turn on your computer and insert the CD. The CD starts automatically and the installation window opens.
2. Select a language and click OK.
3. Click Install Sony Ericsson PC suite and follow the instructions on the screen.

To synchronize using the PC Suite
1. **Computer:** Start PC Suite from Start/Programs/Sony Ericsson/PC Suite.
2. Follow the instructions in the PC Suite for how to connect.
3. **Phone:** Select Phone mode.
4. **Computer:** When you are notified that the Sony Ericsson PC Suite has found your phone, you can start synchronizing.

SyncML
You can synchronize remote data and personal information using SyncML.

Before you synchronize using SyncML
You must enter settings for SyncML synchronization and register a synchronization account online with a service provider. Required settings:

- Server address – server URL
- Database name – database to synchronize with

To enter settings for SyncML
1. From standby select Menu > Organizer > Synchronization.
2. Scroll to New account and select Add > SyncML.
3. Enter a name for the new account and select Cont.
4. Select Server address. Enter the required information and select OK.
5. Enter Username and Password, if required.
6. Scroll to the Applications tab and mark applications to synchronize.
7. Scroll to the App. settings tab and select an application.

Synchronizing using an Internet service
You can synchronize online using SyncML or Microsoft Exchange ActiveSync. If Internet settings are not in your phone, see Settings on page 52.

💡 For usage details, see the Sony Ericsson PC Suite Help section once the software has been installed on your computer.
8 Select Database name and enter the required information.
9 Scroll to the Advanced tab to enter additional settings for synchronizing and select Save.

To synchronize using SyncML

1 From standby select Menu > Organizer > Synchronization.
2 Scroll to an account and select Start.

Microsoft Exchange ActiveSync
You can access and synchronize corporate exchange information such as email, contacts and calendar entries using Microsoft Exchange Server with Microsoft Exchange ActiveSync.

⚠️ Before you start to synchronize with Exchange ActiveSync you must enter the correct time zone in your phone.

To enter settings for Microsoft Exchange ActiveSync

1 From standby select Menu > Organizer > Synchronization.
2 Scroll to New account and select Add > Exchange ActiveSync.
3 Enter a name for the new account and select Cont.
4 Enter the required settings.
5 Scroll between the tabs to enter additional settings.
6 Select Save.

To synchronize using Microsoft Exchange ActiveSync

1 From standby select Menu > Organizer > Synchronization.
2 Scroll to an account and select Start.

Update service
You can update your phone with the latest software. You do not lose personal or phone information.

💡 For more information on synchronization settings, contact your IT administrator.

Before you synchronize using Microsoft Exchange ActiveSync
You must enter settings for Microsoft Exchange ActiveSync to access a Microsoft Exchange Server. Required settings:

- Server address – server URL
- Domain – server domain
- Username – account username
- Password – account password
There are two ways to update your phone:

- Over the air using your phone
- Using the provided USB cable and an Internet-connected computer

*Update service requires data access such as GPRS, 3G or HSDPA.*

Before you use the Update service
If settings are not in your phone see *Settings* on page 52.

*To change Internet settings*
- From standby select *Menu > Settings > the General tab > Update service > Settings > Internet settings.*

*To view the current software in the phone*
1. From standby select *Menu > Settings > the General tab > Update service.*
2. Select *Software version.*

*To use Update service using the phone*
1. From standby select *Menu > Settings > the General tab > Update service.*
2. Select *Search for update* and follow the instructions that appear.

*To use Update service using a USB cable*
1. Go to *www.sonyericsson.com/support* or click *the Sony Ericsson Update service* in *the PC Suite software* if installed on your computer. See *To install the Sony Ericsson PC Suite* on page 56.
2. Select a region and country.
3. Follow the instructions on the screen.

*To set a reminder to use Update service*
1. From standby select *Menu > Settings > the General tab > Update service.*
2. Select *Settings > Reminder.*
2. Select an option.
More features

Flight mode
In Flight mode the network and radio transceivers are turned off to prevent disturbance to sensitive equipment.

When the flight mode menu is activated you are asked to select a mode the next time you turn on your phone:

- Normal mode – full functionality
- Flight mode – limited functionality

💡 You can use the Bluetooth function in Flight mode.

To activate the flight mode menu
- From standby select Menu > Settings > the General tab > Flight mode > Show at startup.

To select flight mode
1. When the flight mode menu is activated, turn off your phone.
2. Turn on your phone and select Flight mode.

File manager
You can use the file manager to handle files saved in the phone memory or on a memory card.

Handling files
You can move and copy files between your phone, a computer and a memory card. See Transferring content to and from a computer on page 39. Files are saved on the memory card first and then in the phone memory. Unrecognized files are saved in the Other folder.

⚠️ You are not allowed to exchange some copyright-protected material. A protected file has a 🎵 icon.

You can create subfolders to move or copy files to. You can select more than one or all the files in a folder at the same time for all folders except Games and Applications.

If the memory is full, delete some content to create space.

3. Follow the instructions that appear.

I cannot charge the phone or battery capacity is low
The charger is not properly connected or the battery connection is poor. Remove the battery and clean the connectors.

The battery is worn out and needs to be replaced. See Charging the battery on page 8.

No battery icon appears when I start charging the phone
It may take a few minutes before the battery icon appears on the screen.

Some menu options appear in grey
A service is not activated. Contact your network operator.

I cannot use SMS/text messages on my phone
Settings are missing or incorrect. Contact your network operator to find out the correct SMS service centre setting. See Text messages on page 33.

I cannot use picture messages on my phone
Your subscription does not include data capability. Settings are missing or incorrect. Please contact your network operator.
See Help in your phone on page 8 or go to www.sonyericsson.com/support to order settings and follow the instructions on the screen. See Settings on page 52.

**I cannot use the Internet**  
Your subscription does not include data capability. Internet settings are missing or incorrect. Please contact your network operator.

See Help in your phone on page 8 or go to www.sonyericsson.com/support to order Internet settings, and follow the instructions on the screen. See Settings on page 52.

**The phone does not ring or rings too softly**  
Make sure that Silent mode has not been set to On. See To turn the ringtone off on page 43.

Check the ringtone volume. See To set the ringtone volume on page 43.

Check the profile. See To select a profile on page 63.

Check the divert call options. See To divert calls on page 29.

**The phone cannot be detected by other devices using Bluetooth wireless technology**  
You have not turned the Bluetooth function on. Make sure that the visibility is set to show phone. See To turn the Bluetooth function on on page 53.

**I cannot synchronize or transfer data between my phone and my computer, when using the USB cable.**  
The cable or software that came with your phone has not been properly installed. Go to www.sonyericsson.com/support to read Getting started guides which contain detailed installation instructions and troubleshooting guides.

**I have forgotten my code memo passcode**  
If you forget your passcode, you must reset the code memo. This means that all entries in the code memo are deleted. The next time you enter the code memo, you must proceed as if you are opening it for the first time.
To reset code memo
1 From standby select Menu > Organizer > Code memo.
2 Enter any passcode to access the code memo. The checkword and codes that are then shown are incorrect.
3 Select Options > Reset.
4 Reset code memo? appears.
5 Select Yes.

Where can I find the regulatory information such as my IMEI number if I cannot turn on my phone?

Error messages

Insert SIM
There is no SIM card in your phone or you may have inserted it incorrectly.

See To insert the SIM card on page 6.

The SIM card connectors need cleaning. If the card is damaged, contact your network operator.

Insert correct SIM card
Your phone is set to work only with certain SIM cards. Check if you are using the correct operator SIM card.

Wrong PIN/Wrong PIN2
You have entered your PIN or PIN2 incorrectly.

Enter the correct PIN or PIN2 and select Yes. See To insert the SIM card on page 6.

PIN blocked/PIN2 blocked
You have entered your PIN or PIN2 code incorrectly three times in a row.

To unblock, see SIM card lock on page 64.

Codes do not match
Codes that you have entered do not match. When you want to change a security code, for example your PIN, you have to confirm the new code. See SIM card lock on page 64.
No netw. coverage
Your phone is in flight mode. See Flight mode on page 59.
Your phone is not receiving any network signal, or the received signal is too weak. Contact your network operator and make sure that the network has coverage where you are.
The SIM card is not working properly. Insert your SIM card in another phone. If this works, it is probably your phone that is causing the problem. Please contact the nearest Sony Ericsson service location.
Emerg. calls only
You are within range of a network, but you are not allowed to use it. However, in an emergency, some network operators allow you to call the international emergency number 112. See Emergency calls on page 23.
PUK blocked. Contact operator.
You entered your personal unblocking key code (PUK) incorrectly 10 times in a row.

Guidelines for Safe and Efficient Use

Please follow these guidelines. Failure to do so might entail a potential health risk or product malfunction. If in doubt as to its proper function, have the product checked by a certified service partner before charging or using it.

Recommendations for care and safe use of our products

- Handle with care and keep in a clean and dust-free place.
- Warning! May explode if disposed of in fire.
- Do not expose your product to liquid or moisture or humidity.
- Do not expose to extreme temperatures. Do not expose the battery to temperatures above +60°C (+140°F).
- Do not expose to flames or lit tobacco products.
- Do not drop, throw or try to bend your product.
- Do not paint or attempt to disassemble or modify your product. Only Sony Ericsson authorised personnel should perform service.
- Consult with authorized medical staff and the instructions of the medical device manufacturer before using your product near pacemakers or other medical devices or equipment.
• Discontinue use of electronic devices or disable the radio transmitting functionality of the device where required or requested to do so.
• Do not use where a potentially explosive atmosphere exists.
• Do not place your product or install wireless equipment in the area above an air bag in your car.
• Caution: Cracked or broken displays may create sharp edges or splinters that could be harmful upon contact.
• Do not use your Bluetooth Headset in positions where it is uncomfortable or will be subject to pressure.

CHILDREN
Warning! Keep out of the reach of children. Do not allow children to play with mobile phones or accessories. They could hurt themselves or others. Products may contain small parts that could become detached and create a choking hazard.

Power supply (Charger)
Connect the charger to power sources as marked on the product. Do not use outdoors or in damp areas. Do not alter or subject the cord to damage or stress. Unplug the unit before cleaning it. Never alter the plug. If it does not fit into the outlet, have a proper outlet installed by an electrician. When power supply is connected there is a small drain of power. To avoid this small energy waste, disconnect the power supply when the product is fully charged. Use of charging devices that are not Sony Ericsson branded may impose increased safety risks.

Battery
New or idle batteries can have short-term reduced capacity. Fully charge the battery before initial use. Use for intended purpose only. Charge the battery in temperatures between +5°C (+41°F) and +45°C (+113°F). Do not put the battery into your mouth. Do not let the battery contacts touch another metal object. Turn off the product before removing the battery. Performance depends on temperatures, signal strength, usage patterns, features selected and voice or data transmissions. Only Sony Ericsson service partners should remove or replace built-in batteries. Use of batteries that are not Sony Ericsson branded may pose increased safety risks.

Personal medical devices
Mobile phones may affect implanted medical equipment. Reduce risk of interference by keeping a minimum distance of 15 cm (6 inches) between the phone and the device. Use the phone at your right ear. Do not carry the phone in your breast pocket. Turn off the phone if you suspect interference. For all medical devices, consult a physician and the manufacturer.

Driving
Some vehicle manufacturers forbid the use of phones in their vehicles unless a handsfree kit with an external antenna supports the installation. Check with your vehicle manufacturer’s representative to be sure that your mobile phone or Bluetooth handsfree will not affect the electronic systems in your vehicle. Full attention should be given to driving at all times and local laws and regulations restricting the use of wireless devices while driving must be observed.
GPS/Location based functions
Some products provide GPS/Location based functions. Location determining functionality is provided “As is” and “With all faults”. Sony Ericsson does not make any representation or warranty as to the accuracy of such location information.
Use of location-based information by the device may not be uninterrupted or error free and may additionally be dependent on network service availability. Please note that functionality may be reduced or prevented in certain environments such as building interiors or areas adjacent to buildings.
Caution: Do not use GPS functionality in a manner which causes distraction from driving.

Emergency calls
Calls cannot be guaranteed under all conditions. Never rely solely upon mobile phones for essential communications. Calls may not be possible in all areas, on all networks, or when certain network services and/or phone features are used.

Antenna
Use of antenna devices not marketed by Sony Ericsson could damage your phone, reduce performance, and produce SAR levels above the established limits. Do not cover the antenna with your hand as this affects call quality, power levels and can shorten talk and standby times.

Radio frequency (RF) exposure and Specific Absorption Rate (SAR)
When your phone or Bluetooth handsfree is turned on, it emits low levels of radio frequency energy. International safety guidelines have been developed through periodic and thorough evaluation of scientific studies. These guidelines establish permitted levels of radio wave exposure. The guidelines include a safety margin designed to assure the safety of all persons and to account for any variations in measurements.

Specific Absorption Rate (SAR) is used to measure radio frequency energy absorbed by the body when using a mobile phone. The SAR value is determined at the highest certified power level in laboratory conditions, but because the phone is designed to use the minimum power necessary to access the chosen network, the actual SAR level can be well below this value. There is no proof of difference in safety based on difference in SAR value.
Products with radio transmitters sold in the US must be certified by the Federal Communications Commission (FCC). When required, tests are performed when the phone is placed at the ear and when worn on the body. For body-worn operation, the phone has been tested when positioned a minimum of 15 mm from the body without any metal parts in the vicinity of the phone or when properly used with an appropriate Sony Ericsson accessory and worn on the body.
For more information about SAR and radio frequency exposure go to: www.sonyericsson.com/health.

Malware
Malware (short for malicious software) is software that can harm your mobile phone or other computers. Malware or harmful applications can include viruses, worms, spyware, and other unwanted programs. While your device does employ security measures to resist such efforts, Sony Ericsson does not warrant or represent that your device will be impervious to introduction of malware. You can however reduce the risk of malware attacks by using care when downloading content or accepting applications, refraining from opening or responding to messages from unknown sources, using trustworthy services to access the Internet, and only downloading content to your mobile phone from known, reliable sources.
Accessories
Use only Sony Ericsson branded original accessories and certified service partners. Sony Ericsson does not test third-party accessories. Accessories may influence RF Exposure, radio performance, sound loudness, electric safety and other areas. Third-party accessories and parts may pose a risk to your health or safety or decrease performance.

Accessible Solutions/Special Needs
In the US, compatible Sony Ericsson phones may offer compatibility with TTY terminals (with use of necessary accessory). For more information call the Sony Ericsson Special Needs Center on 877 878 1996 (TTY) or 877 207 2056 (voice), or go to www.sonyericsson-snc.com.

Disposal of old electrical and electronic equipment
Electronic equipment and batteries should not be included as household waste but should be left at an appropriate collection point for recycling. This helps prevent potential negative consequences for the environment and human health. Check local regulations by contacting your local city office, your household waste disposal service, the shop where you purchased the product or calling a Sony Ericsson Call Center.

Disposing of the battery
Check local regulations or call a Sony Ericsson Call Center for information. Never use municipal waste.

Memory card
If your product comes complete with a removable memory card, it is generally compatible with the mobile phone purchased but may not be compatible with other devices or the capabilities of their memory cards. Check other devices for compatibility before purchase or use. If your product is equipped with a memory card reader, check memory card compatibility before purchase or use.

Memory cards are generally formatted prior to shipping. To reformat the memory card, use a compatible device. Do not use the standard operating system format when formatting the memory card on a PC. For details, refer to the operating instructions of the device or contact customer support.

WARNING:
If your device requires an adapter for insertion into the mobile phone or another device, do not insert the card directly without the required adapter.

Precautions on Memory Card Use
- Do not expose the memory card to moisture.
- Do not touch terminal connections with your hand or any metal object.
- Do not strike, bend, or drop the memory card.
- Do not attempt to disassemble or modify the memory card.
- Do not use or store the memory card in humid or corrosive locations or in excessive heat such as a closed car in summer, in direct sunlight or near a heater, etc.
- Do not press or bend the end of the memory card adapter with excessive force.
- Do not let dust or foreign objects get into the insert port of any memory card adapter.
• Check you have inserted the memory card correctly.
• Insert the memory card as far as it will go into any memory card adapter needed. The memory card may not operate properly unless fully inserted.
• We recommend that you make a backup copy of important data. We are not responsible for any loss or damage to content you store on the memory card.
• Recorded data may be damaged or lost when you remove the memory card or memory card adapter, or turn off the power while formatting, reading or writing data, or when you use the memory card in locations subject to static electricity or high electrical field emissions.

Protection of personal information
Erase personal data before disposing of the product. To delete data, perform a master reset. Deleting data from the phone memory does not ensure that it cannot be recovered. Sony Ericsson does not warrant against recovery of information and does not assume responsibility for disclosure of any information even after a master reset.

LOUDNESS WARNING:
Avoid volume levels that may be harmful to your hearing.

End User Licence Agreement
Software delivered with this device and its media is owned by Sony Ericsson Mobile Communications AB, and/or its affiliated companies and its suppliers and licensors.
Sony Ericsson grants you a non-exclusive limited license to use the Software solely in conjunction with the Device on which it is installed or delivered. Ownership of the Software is not sold, transferred or otherwise conveyed.
Do not use any means to discover the source code or any component of the Software, reproduce and distribute the Software, or modify the Software.

You are entitled to transfer rights and obligations to the Software to a third party, solely together with the Device with which you received the Software, provided the third party agrees in writing to be bound by the terms of this License.
This license exists throughout the useful life of this Device. It can be terminated by transferring your rights to the Device to a third party in writing. Failure to comply with any of these terms and conditions will terminate the license immediately.
Sony Ericsson and its third party suppliers and licensors retain all rights, title and interest in and to the Software. Sony Ericsson, and, to the extent that the Software contains material or code of a third party, such third party, shall be entitled third party beneficiaries of these terms.

This license is governed by the laws of Sweden. When applicable, the foregoing applies to statutory consumer rights.
In the event Software accompanying or provided in conjunction with your device is provided with additional terms and conditions, such provisions shall also govern your possession and usage of the Software.

Limited Warranty
Sony Ericsson Mobile Communications AB, SE-221 88 Lund, Sweden, (Sony Ericsson) or its local affiliated company, provides this Limited Warranty for your mobile phone, original accessory delivered with your mobile phone, and/or your mobile computing product (hereinafter referred to as “Product”).
Should your Product need warranty service, please return it to the dealer from whom it was purchased, or contact your local Sony Ericsson Call Center (national rates may apply) or visit www.sonyericsson.com for further information.
Our warranty
Subject to the conditions of this Limited Warranty, Sony Ericsson warrants this Product to be free from defects in design, material and workmanship at the time of its original purchase by a consumer. This Limited Warranty will last for a period of two (2) years as from the original date of purchase of the Product for your mobile phone, and for a period of one (1) year following the original purchase date of the Product for all original accessories (such as the battery, charger or handsfree kit) which may be delivered with your mobile phone.

What we will do
If, during the warranty period, this Product fails to operate under normal use and service, due to defects in design, materials or workmanship, Sony Ericsson authorized distributors or service partners, in the country/region* where you purchased the Product, will, at their option, either repair or replace the Product in accordance with the terms and conditions stipulated herein.
Sony Ericsson and its service partners reserve the right to charge a handling fee if a returned Product is found not to be under warranty according to the conditions below.
Please note that some of your personal settings, downloads and other information may be lost when your Sony Ericsson Product is repaired or replaced. At present Sony Ericsson may be prevented by applicable law, other regulations or technical restrictions from making a backup copy of certain downloads. Sony Ericsson does not take any responsibility for any lost information of any kind and will not reimburse you for any such loss. You should always make backup copies of all the information stored on your Sony Ericsson Product such as downloads, calendar and contacts before handing in your Sony Ericsson Product for repair or replacement.

Conditions
1 This Limited Warranty is valid only if the original proof of purchase for this Product issued by a Sony Ericsson authorized dealer specifying the date of purchase and serial number**, is presented with the Product to be repaired or replaced. Sony Ericsson reserves the right to refuse warranty service if this information has been removed or changed after the original purchase of the Product from the dealer.
2 If Sony Ericsson repairs or replaces the Product, the repair for the defect concerned, or the replaced Product shall be warranted for the remaining time of the original warranty period or for ninety (90) days from the date of repair, whichever is longer. Repair or replacement may involve the use of functionally equivalent reconditioned units. Replaced parts or components will become the property of Sony Ericsson.
3 This warranty does not cover any failure of the Product due to normal tear and wear, or due to misuse, including but not limited to use in other than the normal and customary manner, in accordance with the Sony Ericsson instructions for use and maintenance of the Product. Nor does this warranty cover any failure of the Product due to accident, software or hardware modification or adjustment, acts of God or damage resulting from liquid. A rechargeable battery can be charged and discharged more than a hundred times. However, it will eventually wear out – this is not a defect and corresponds to normal wear and tear. When the talk time or standby time is noticeably shorter, it is time to replace your battery. Sony Ericsson recommends that you use only batteries and chargers approved by Sony Ericsson.
Minor variations in display brightness and color may occur between the phones. There may be small, bright or dark dots on the display. These are called defective pixels and occur when individual dots have malfunctioned and cannot be adjusted. Two defective pixels are deemed acceptable.
Minor variations in camera image appearance may occur between phones. This is not uncommon and is not regarded as a defective camera module.

4 Since the cellular system on which the Product is to operate is provided by a carrier independent from Sony Ericsson, Sony Ericsson will not be responsible for the operation, availability, coverage, services or range of that system.

5 This warranty does not cover Product failures caused by installations, modifications, or repair or opening of the Product performed by a non-Sony Ericsson authorised person.

6 The warranty does not cover Product failures which have been caused by use of accessories or other peripheral devices which are not Sony Ericsson branded original accessories intended for use with the Product.

Sony Ericsson disclaims any and all warranties, whether express or implied, for failures caused to the Product or peripheral devices as a result of viruses, trojans horses, spyware, or other malicious software. Sony Ericsson strongly recommends that you install appropriate virus protection software on your Product and any peripheral devices connected to it, as available, and update it regularly, to better protect your device. It is understood, however, that such software will never fully protect your Product or its peripheral devices and Sony Ericsson disclaims all warranties, whether express or implied, in case of failure by such antivirus software to fulfill its intended purpose.

7 Tampering with any of the seals on the Product will void the warranty.

8 THERE ARE NO EXPRESS WARRANTIES, WHETHER WRITTEN OR ORAL, OTHER THAN THIS PRINTED LIMITED WARRANTY. ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL SONY ERICSSON OR ITS LICENSORS BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE WHATSOEVER, INCLUDING BUT NOT LIMITED TO LOST PROFITS OR COMMERCIAL LOSS; TO THE FULL EXTENT THOSE DAMAGES CAN BE DISCLAIMED BY LAW.

Some countries/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

The warranty provided does not affect the consumer’s statutory rights under applicable legislation in force, nor the consumer’s rights against the dealer arising from their sales / purchase contract.

* GEOGRAPHICAL SCOPE OF THE WARRANTY

If you have purchased your Product in a country member of the European Economic Area (EEA) or in Switzerland or the Republic of Turkey, and such Product was intended for sale in the EEA or in Switzerland or in Turkey, you can have your Product serviced in any EEA country or in Switzerland or in Turkey, under the warranty conditions prevailing in the country in which you require servicing of the Product, provided that an identical Product is sold in such country by an authorised Sony Ericsson distributor. To find out if your Product is sold in the country you are in, please call the local Sony Ericsson Call Center. Please observe that certain services may not be possible elsewhere than in the country of original purchase due, for example, to the fact that your Product may have an interior or exterior which is different from equivalent models sold in other countries. In addition, please note that it may sometimes not be possible to repair SIM-locked Products.

** In some countries/regions additional information (such as a valid warranty card) may be requested.
FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
Any change or modification not expressly approved by Sony Ericsson may void the user’s authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

Industry Canada Statement

This device complies with RSS-210 of Industry Canada.
Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.
This Class B digital apparatus complies with Canadian ICES-003.
